

Announcing

Biotechnology Summer Institute 2008

An intensive and exciting experience learning & applying Molecular-Cell Biology principles and lab skills to the Biotechnology setting

Part 1 **BIOT 116 Biotech Summer Institute** (4 units)

6/23 to 7/21/08 8:00am to 5:00pm M,T,W,Th

Biotech Lab, NC2418 (Ohlone College's Center for Health Science & Technology)

Part 2 **Biotech Institute Internship** (2 units)

Pending availability, students who successfully complete BIOT 116 will be eligible for a short experience in a local biotechnology company 7/23 to 8/15/08 M-F 8:00am-5:00pm

Eligibility: Students who will be seniors during the 2008-09 school year or just graduated in 2007 and who successfully completed Honors or AP Biology and Honors or AP Chemistry OR a high school Biotechnology Program.

Application: Interested students must email the following Information directly to Dean Quinta (Math, Science, Engineering & Technology)

1. Your Name, Phone No, Address, High School, HS class (i.e., presently a Junior),
2. Name & email address of your science teacher or counselor who will recommend you for this program.
3. Statement of Interest—including a list of science & math courses you completed & a paragraph on why you want to be involved in this program.
4. Letter of support—ask your science teacher or counselor to email a statement that supports your application to participate in the Biotech Summer Institute. This letter must be email directly from the writer to the address below.
5. Email the above to: rquinta@ohlone.edu

Applications are due: On or Before Monday, March 31, 2008

BIOT 105 "Intro To Cell & Molecular Biology" is also offered this summer for students who wish to start their prep in Biotechnology
