Questions about specific homework problems will be discussed in class, as time permits. Whether or not a question has been addressed in class, please feel free to ask any questions about homework problems or other material during office hours or Math Learning Center hours or other times by appointment.

ATTENDANCE: In all cases, you are responsible for everything covered and/or announced during any class time you miss. Excessive latenesses and absences will affect your grade through the quiz/participation grade. If you are absent for 6 or more classes, you may be dropped from the class. All students should be respectful of others by turning off their cell phones, not having side conversations, and not creating other distractions during classtime.

Academic Integrity

"Academic dishonesty defrauds all those who depend upon the integrity of the College, its courses, and its degrees and certificates."

- Ohlone College Board Regulation 7.8.4

“At Ohlone, cheating is the act of obtaining or attempting to obtain credit for academic work through the use of any dishonest, deceptive, or fraudulent means.

Cheating at Ohlone includes but is not limited to the following:

1. Copying, in part or in whole, from another's test or other evaluation instrument or obtaining answers from another person during the test;
2. Submitting work previously presented in another course, if contrary to the rules of either course;
3. Using or consulting during an examination sources or materials not authorized by the instructor;
4. Altering or interfering with grading or grading instructions;
5. Sitting for an examination by a surrogate, or as a surrogate;
6. Any other act committed by a student in the course of his or her academic work which defrauds or misrepresents, including aiding or abetting in any of the actions defined above.”

- Ohlone College Board Regulation 7.8.4.1 (underlining added)

The Ohlone College Board Regulations recommend the following sanctions for violations of Items 1, 2, and 3 above:

- Failure on the evaluation instrument (paper or exam)
- Reduction in course grade, including possible failure of course

In this class, one of these two sanctions will be applied to any violation of items 1 through 5 above - the choice of sanction will depend on the scope of the violation. In addition, as required by Board Regulations, the violation will be reported to the Associate Vice President of Student Services, who may apply further administrative sanctions, including suspension or expulsion.

Violations of Item 6 above - including, specifically, incidents where one student knowingly assists another student in cheating - will have the same academic sanctions applied as listed above.
