Committee Report:

Please include any action taken, important points that need to be brought to the ASOC Council's attention.

On our last meeting, we discussed about the roles of the Students Learning Objectives Committee. What this committee does it to figure out what is most important for students to learn, what is the most effective way to collect data to see if the students are learning, and how we can change it so we can improve these roles. Our action item is to review our SLO Charter, which consists of these goals and descriptions of the roles of the members that make up the committee. The Chair of the committee is Deb Parziale, the SLO Coordinator and other members include faculty and deans representing various Academic Divisions and the Office of Institutional Research and two ASOC Council members who represent the voice of the students. We also reviewed the Rubric for Evaluating Institutional Effectiveness and according to the Chair, we are at level 3 out of 4 levels.
