MEMORANDUM

TO: Board of Trustees

FROM: Douglas Treadway

DATE: October 26, 2005

Consent Agenda

SUBJECT: Addition of Health Services Fee for Students Receiving Board of Governors (BOG) Waivers

---

Mr. Ron Travenick, Associate Vice President, Student Services, recommends that the Board approve the addition of the health services fee to students receiving Board of Governors (BOG) waivers. Over the past two years, increases in the amount of students awarded BOG waivers has greatly reduced funding for the Student Health Center. The recent signing of AB 982 removes the past requirement that BOG students be exempted from this fee.

The current fee of \$14.00 for Fall and Spring and \$11.00 for Summer terms would go into effect in Spring 2006 for students receiving BOG waivers. The revenue from these fees will supply much needed support for the continued operation of the Student Health Center.

RECOMMENDATION:

The President/Superintendent recommends approval of the addition of the health services fee to students receiving BOG Waivers effective Spring 2006.
