

OHLONE COMMUNITY COLLEGE DISTRICT

MEMORANDUM

TO: Board of Trustees  
FROM: Douglas Treadway  
DATE: April 12, 2006  
SUBJECT: Construction Bid Comparison Information

In response to Board of Trustees' concerns over the limited responses received to several bid solicitations for construction of the Ohlone College Newark Center for Health Sciences and Technology, staff is gathering comparison information. Staff is checking with the Chancellor's Office to gather information on recent bid awards related to state funded construction projects. Staff is also contacting other college districts to learn if they have experienced any difficulties in attracting enough bidders on their projects. Staff will also ask if bid amounts have exceeded project estimates. In addition, Turner Construction will prepare a matrix comparing recent bid information from their clients. This information will be compiled and presented at the Board meeting.
