

OHLONE COMMUNITY COLLEGE DISTRICT

MEMORANDUM

TO: Board of Trustees

FROM: Douglas Treadway

DATE: May 24, 2006

SUBJECT: Approval to Amend the Newark and Fremont Master Plans

Staff requests a modification of the Newark Ohlone Master Plan to include a proposed baseball field and seating stadium at the northwest portion of the Newark site. It is estimated that approximately seven (7) acres would be needed to accommodate this project. Modification of the Fremont Ohlone Master Plan is also required in order to perform this move from the Fremont campus.

With this approval, staff will enlist the services of an architect to modify the existing plan, and an environmental impact report will be ordered for the Newark campus.

RECOMMENDATION:

The President/Superintendent recommends Board approval of modification to the Newark Ohlone Master Plan to include a possible baseball field and stadium, and a modification of the Fremont campus Master Plan to relocate the baseball field.
