1st. August 2006

To those concerned,

After much deliberation I am obliged to resign my position as Information Systems Technologist. My resignation is to become effective August 14th 2006.

With great personal reluctance I must advise you I am unable to sustain my duties due to my declining health. My deteriorating health has in great part arisen from the failure of a basic understanding of the nature of the job I perform and the number of assignments I'm charged with.

In striving to meet these demands I've driven both my mental and physical capabilities to the point of collapse. It has only been after seeking out multiple medical opinions I have arrived at this difficult decision.

It is with regret I have no other option but to recognize that my continued employment with the Ohlone Community College District would lead to a catastrophic and enduring break down of my physiology.

I need to return my keys and collect the remainder of my personal items. I wish to complete any on campus activities as soon as possible. Please arrange my departure processes as soon as possible.

It is my preference to please forward any communications with me through my email address at sean.l.mason@gmail.com.

Sincerely,

Sean Loren Mason
