

OHLONE COMMUNITY COLLEGE DISTRICT

MEMORANDUM

TO: Board of Trustees

FROM: Gari Browning

DATE: April 8, 2009

SUBJECT: Fremont Open Space to Achieve LEED Gold Certification for
the Student Services Building

Information Item

The Student Services Building project is attempting to achieve LEED Gold Certification. As part of this process, as many as two of the required minimum of 39 points may be obtained under Credit 5.2 (Site Development: Maximize Open Space) by protecting open space from future development. Our Measure A Bond Program Manager, Don Eichelberger, will present several options for consideration and comment by the Board in anticipation of bringing a formal action in a subsequent meeting. The Board will recall that a similar action was taken for the Newark Campus project to achieve LEED Platinum Certification.

RECOMMENDATION

For information only.
