¹ Requires submission of high school lab notebook to receive credit

² If a student passes more than one exam in calculus or computer science, only one exam may be applied to a degree

³ If a student passes more than one exam in physics, only 6 units may be applied to the degree and only 4 units applied to CSU/GE certification and only 3 units applied to IGETC certification

⁴ Only 2.7 units are awarded toward the degree, but the successful completion of the exam will meet the 3-unit requirement of the IGETC area

⁵ A score of 3 or higher is required to meet Plan A GE requirements; to meet major requirements requires a score of 4 or higher
