

ACCREDITATION UPDATE – MAY 2009

On April 29th two representatives from the Accrediting Commission spent the day at Ohlone to follow up on our March report. They were also checking on our previous report related to the Board of Trustees. The team met with several administrators, trustees, and the College Council. The report was in response to recommendations about planning, program review, the relationship between them and the budget, and our employee evaluation processes. It reflected the hard work of the whole college over the past year to make sure Ohlone met all accreditation standards. And based on the exit meeting I had with the team, they were impressed! Their remarks were very encouraging.

The Commission will meet in June to review our status. I will attend the meeting to report on the accomplishments we make between now and June. We will hear the Commission response by early July.
