

ACCREDITATION UPDATE JUNE 10, 2009

Accreditation meeting June 11

I have an appointment to make a presentation to the Commission at tomorrow's meeting. I plan to report on Ohlone's progress on the recommendations since the April 29 visit. This progress includes the following:

- completion and resource analysis of our Program Improvement Objectives, which are on schedule to be prioritized for resource allocation prior to approval of the final budget in September;
- completion of the pilot Program and Services Review module in CurricUNET; all 2009-10 reviews to be done in the new module; all programs will be encouraged to enter current reviews into the module and complete reviews ahead of schedule with the goal of fully online and annual Program and Services Review implementation by the end of 2010-11;
- further refinement of our College goals and objectives;
- preliminary planning for the Final Report on the 2005-2010 Strategic Plan;
- College Council and Board approval of our 2010-2015 Strategic Plan (which you approved earlier tonight);
- discussions on how the College will make progress on the Strategic Plan in a period of fiscal downsizing
