This revision is required to implement project planning efforts on behalf of the Bond Management Team to plan and prioritize project scopes and funding.

Bond List Revision #09 provides adequate funding to complete the scope of Project 6105 Academic Core Buildings.

Funding is transferred within the Measure G Bond Program to Project 6105 from the following sources:

- Projects with budget savings after having completed the project scope.
- Projects expected to have budget savings when the intended scope is aligned with the revised budget
- Projects which have been cancelled
- Program Contingency
- Earned Interest

Bond List Revision #09 also divides existing Project 9112 into three distinct projects for budget tracking purposes. The three projects will accomplish the intended original scope which was originally consolidated in Project 9112.
