AP 5011  Admissions and Concurrent Enrollment of High School and Other Young Students

Reference: *Education Code Sections 48800, 48800.5, 76001, 76002*

Ohlone College may admit special part-time students who are able to benefit from advanced scholastic or vocational work, as determined by the district governing board of the school district in which the student is enrolled. Such students may be enrolled in up to 7 units per full term on a space available basis.

Admission and registration of high school and younger students may be withdrawn or closed based on seat availability and is also limited to specific courses listed in the schedule of classes and in the application packet. High school and other young students do not receive priority registration. To be considered for admission the student must apply each term, meet the standards established in Education Code 76001 and supply a completed application packet which includes:

- Completed application
- Signed parent/guardian consent,
- Signed statement from his/her principal that the student is capable of benefiting from college level instruction.

In situations where the student is not enrolled in public or private institutions, the parent or guardian may supply this statement.

Students will not be admitted unless they have availed themselves of all opportunities to enroll in equivalent courses at their schools of attendance.

The Vice President, Student Services, or designee, will review the submitted materials and make a determination to admit any high school student. The decision of the Vice President, Student Services shall be final.

Students admitted under the provisions of this regulation are expected to follow the regulations and procedures established for all college students. The Ohlone Community College District is not responsible for the supervision of minor students outside of the classroom setting. Parents are responsible for ensuring that their children are appropriately supervised before class begins, after class finishes and if or when a class is cancelled and/or dismissed early. Parents or guardians will not have access to a student’s records (including grades and transcripts) without the student’s written consent, the student’s minor status notwithstanding.

The student will receive credit for community college courses in the same manner as a regularly enrolled community college student. Granting of high school credit is determined solely by the high school district.

**Apportionment Considerations**
All K-12 students are coded in the Ohlone system as Special Admissions (SP) students. These students are further defined as falling into the K-9 or 10-12 level to control their registration access. All class offerings follow state guidelines to insure open enrollment including inclusion in the Ohlone College Catalog, and the published and electronic schedule of classes. For classes offered on a high school campus, the principal of the school must sign an agreement with Ohlone which agrees to the open enrollment of all students. In cases where a college course is offered on a high schools campus, the class will be open to all students. The class section must be advertised for at least 30 continuous days on the electronic schedule.
Denial of Admission
If a request for a special part-time of full time enrollment is denied, The Vice President, Student Services provides a recommendation regarding denial to the Board of Trustees at a regularly scheduled meeting that falls at least 30 days after the request for admission has been submitted. The Board will provide written findings and reasons for the denial within 60 days.

AP 5015 Residence Determination

References: Education Code Sections 68000 et seq. and 68130.5; Title 5 Sections 54000 et seq.

Residence Classification
Residency classifications shall be determined for each student at the time of each registration and whenever a student has not been in attendance for more than one semester. Residence classifications are to be made in accordance with the following provisions:

- A residence determination date is that day immediately preceding the opening day of instruction for any session during which the student proposes to attend.
- Residence classification is the responsibility of the Office of Admissions and Records.

Rules Determining Residence

- A student who has resided in the state for more than one year immediately preceding the residence determination date is a resident.
- A student who has not resided in the state for more than one year immediately preceding the residence determination date is a nonresident.

The residence of each student enrolled in or applying for enrollment in any class or classes maintained by this District shall be determined in accordance with the Education Code which states that every person has, in law, a residence. In determining the place of residence, the following rules are to be observed:

- Every person who is married or eighteen years of age, or older, and under no legal disability to do so, may establish residence.
- A person may have only one residence.
- A residence is the place where one remains when not called elsewhere for labor or other special or temporary purpose and to which one returns in seasons of repose.
- A residence cannot be lost until another is gained.
- The residence can be changed only by the union of act and intent.
- A man or a woman may establish his or her residence. A woman's residence shall not be derivative from that of her husband.
- The residence of the parent with whom an unmarried minor child maintains his/her place of abode is the residence of the unmarried minor child. When the minor lives with neither parent, the minor's residence is that of the parent with whom the last place of abode was maintained, provided the minor may establish his/her residence when both parents are deceased and a legal guardian has not been appointed.
- The residence of an unmarried minor who has a parent living cannot be changed by the minor's own act, by the appointment of a legal guardian, or by relinquishment of a parent's right of control.

Determination of Resident Status
A resident is a student who has been a bona fide resident of the state for one year prior to the residence determination date. A bona fide resident is a person whose residence is in California as determined above except:

- A student who is a minor and remains in this state after the parent, who was previously domiciled in California and has established residence elsewhere, shall be entitled to retain resident classification until attaining the age of majority and has resided in the state the minimum time necessary to become a resident, so long as continuous attendance is maintained at an institution.
• A student who is a minor and who provides evidence of being entirely self-supporting and actually present in California for more than one year immediately preceding the residence determination date with the intention of acquiring a residence therein, shall be entitled resident classification until he/she has resided in the state the minimum time necessary to become a resident.

• A student who has not been an adult for one year immediately preceding the residence determination date for the semester for which the student proposes to attend an institution shall have the immediate pre-majority-derived California residence, if any, added to the post-majority residence to obtain the one year of California residence.

• A student holding a valid credential authorizing service in the public schools of this state, who is employed by a school district in a full-time position requiring certification qualifications for the college year in which the student enrolls in an institution, shall be entitled to resident classification if each student meets any of the following requirements:
  o He/she holds a provisional credential and is enrolled in courses necessary to obtain another type of credential authorizing service in the public schools.
  o He/she holds a credential issued pursuant to Education Code Section 44250 and is enrolled in courses necessary to fulfill credential requirements.
  o He/she is enrolled in courses necessary to fulfill the requirements for a fifth year of education prescribed by subdivision (b) of Education Code Section 44259.

• A student holding a valid emergency permit authorizing service in the public schools of this state, who is employed by a school district in a full-time position requiring certification qualifications for the academic year in which the student enrolls at an institution in courses necessary to fulfill teacher credential requirements, is entitled to resident classification only for the purpose of determining the amount of tuition and fees for no more than one year. Thereafter, the student’s residency status will be determined under the other provisions of this procedure.

• A student who is a full-time employee of the California State University, the University of California or a community college, or of any state agency or a student who is a child or spouse of a full-time employee of the California State University, the University of California or a community college, or of any state agency may be entitled to resident classification, until the student has resided in the state the minimum time necessary to become a resident.

• A student who is a natural or adopted child, stepchild, or spouse who is a dependent of a member of the armed forces of the United States stationed in this state on active duty shall be entitled to resident classification. If the member of the armed forces of the United States later transfers on military orders to a place outside this state, or retires as an active member of the armed forces of the United States, the student dependent shall not lose his/her resident classification, so long as he/she remains continuously enrolled in the District.

• A student who is a member of the armed forces of the United States stationed in this state on active duty, except a member of the Armed Forces assigned for educational purposes to a state-supported institution of higher education, is entitled to resident classification for the purpose of determining the amount of tuition and fees. If the student later transfers on military orders to a place outside this state, the student shall not lose his/her resident classification, so long as he/she remains continuously enrolled in the District.

• A student who was a member of the armed forces of the United States stationed in this state on active duty for more than one year immediately prior to being discharged from the armed forces is entitled to resident classification for the length of time he/she lives in this state after being discharged up to the minimum time necessary to become a resident.

• A student who is a minor and resides with his or her parent in a district or territory not in a district shall be entitled to resident classification, provided that the parent has been domiciled in California for more than one year prior to the residence determination date for the semester, quarter or term for which the student proposes to attend.
• A student who is a Native American is entitled to resident classification for attendance at a community college if the student is also attending a school administered by the Bureau of Indian Affairs located within the community college district.

• A student who is a federal civil service employee and his or her natural or adopted dependent children are entitled to resident classification if the parent has moved to this state as a result of a military mission realignment action that involves the relocation of at least 100 employees. This classification shall continue until the student is entitled to be classified as a resident, so long as the student continuously attends an institution of public higher education.

• A student who resides in California and is 19 years of age or under at the time of enrollment, who is currently a dependent or ward of the state through California's child welfare system, or was served by California's child welfare system and is no longer being served either due to emancipation or aging out of the system, may be entitled to resident classification until he/she has resided in the state the minimum time necessary to become a resident.

• A student who lives with a parent who earns a livelihood primarily by performing agricultural labor for hire in California and other states, and the parent has performed such labor in this state for at least two months per year in each of the two preceding years, and the parent resides in this District and the parent of the student has claimed the student as a dependent on his state or federal personal income tax return if he/she has sufficient income to have personal income tax liability shall be entitled to resident classification.

Right To Appeal
Students who have been classified as non-residents have the right to a review of their classification (Title 5 Section 54010 (a)). Any student, following a final decision of residence classification by the Admissions and Records Office, may make written appeal to the Vice President of Student Services within 30 calendar days of notification of final decision by the college regarding classification.

Appeal Procedure
The appeal is to be submitted to Admissions and Records Office which must forward it to the Vice President for Student Services within five working days of receipt. Copies of the original application for admission, the residency questionnaire, and evidence or documentation provided by the student, with a cover statement indicating upon what basis the residence classification decision was made, must be forwarded with the appeal.

The Vice President shall review all the records and have the right to request additional information from either the student or the Admissions and Records Office.

Within 30 calendar days of receipt, the Vice President shall send a written determination to the student. The determination shall state specific facts on which the appeal decision was made.

Reclassification
A student previously classified as a non-resident may be reclassified as of any residence determination date. A residence determination date is that day immediately preceding the opening day of instruction for any session during which the student proposes to attend.

Petitions are to be submitted to the Admissions Office.

Petitions must be submitted prior to the semester for which reclassification is to be effective. Extenuating circumstances may be considered in cases where a student failed to petition for reclassification prior to the residency determination date. In no case, however, may a student receive a non-resident tuition refund after the date of the first census.
Written documentation may be required of the student in support of the reclassification request.

A questionnaire to determine financial independence must be submitted with the petition for reclassification. Determination of financial independence is not required for students who were classified as non-residents by the University of California, the California State University, or another community college District (Education Code Section 68044).

A student shall be considered financially independent for purposes of residence reclassification if the applicant meets all of the following requirements:

- Has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent in the calendar year prior to the year the reclassification application is made;
- Has not lived and will not live for more than six weeks in the home of his/her parent during the calendar year the reclassification application is made.

A student who has established financial independence may be reclassified as a resident if the student has met the requirements of Title 5 Sections 54020, 54022, and 54024.

Failure to satisfy all of the financial independence criteria listed above does not necessarily result in denial of residence status if the one year requirement is met and demonstration of intent is sufficiently strong.

Financial dependence in the current or preceding calendar year shall weigh more heavily against finding California residence than financial dependence in the preceding second and third calendar years. Financial dependence in the current or preceding calendar year shall be overcome only if (1) the parent on whom the student is dependent is a California resident, or (2) there is no evidence of the student's continuing residence in another state.

The Office of Admissions and Records will make a determination, based on the evidence and notify the student not later than 14 days of receipt of the petition for reclassification.

Students have the right to appeal according to the procedures above.

**Non-Citizens**
The District will admit any non-citizen who is 18 years of age or a high school graduate.

If non-citizens are present in the United States illegally or with any type of temporary visa, they will be classified as non-residents and charged non-resident tuition unless they meet the exceptions contained below.

If, for at least one year and one day prior to the start of the semester in question, a non-citizen has possessed any immigration status that allows him/her to live permanently in the United States and she or he meets the California residency requirements, the student can be classified as a resident.

Any students who are U.S. citizens, permanent residents of the U.S., and aliens who are not nonimmigrants (including those who are undocumented), may be exempt from paying nonresident tuition if they meet the following requirements:

- high school attendance in California for three or more years;
- graduation from a California high school or attainment of the equivalent thereof;
- registration or enrollment in a course offered by any college in the district for any term commencing on or after January 1, 2002,
• completion of a questionnaire form prescribed by the Chancellor and furnished by the district of enrollment, verifying eligibility for this nonresident tuition exemption; and
• in the case of a student without lawful immigration status, the filing of an affidavit that the student has filed an application to legalize his/her immigration status, or will file an application as soon as he or she is eligible to do so.

AP 5500 Standards of Conduct

References: *Education Code Sections 66300 and 66301; Accreditation Standard II.A.7.b*

The College reserves the right to take any necessary and/or appropriate steps to protect the safety and well-being of the college community. While the jurisdiction of the College shall generally be limited to conduct which occurs on College premises or at College-sponsored events, a student who is charged with a felony as a result of off-campus behavior, or who represents a risk to the health or safety of the college community, may also be subject to student conduct action. In addition, the jurisdiction may be extended when a student, or a student organization, commits a prohibited act off campus against a student or employee of the College, or against the College itself, when such act is related to the student's or victim's status at the College.

The College maintains its firm commitment to providing reasonable accommodations to students certified with disabilities, and such students are encouraged to discuss with DSPS (Disabled Students Programs and Services) any concerns they have about the requirements set forth within these Standards of Student Conduct. When appropriate, the College will give consideration to whether a conduct violation directly related to a student's disability could have been mitigated by reasonable accommodations. However, it is important to understand that the Standards of Student Conduct described here and the associated Student Discipline Procedures will be applied to all students equally, based exclusively on behavior and conduct.

Although not all-inclusive, the following actions, activities and behaviors are expressly prohibited.

**Academic dishonesty**

Engaging in any form of academic dishonesty including, but not limited to:

- cheating on an examination
- plagiarizing, that is, the taking and passing off as one's own work the ideas, writings, or work of another, without citing the source
- submitting work from another course unless receiving advance approval to do so by the instructor
- stealing or possessing stolen examinations or course materials
- posing as another person or allowing another person to pose as oneself
- falsifying academic records
- receiving help from others in work to be submitted, if contrary to stated course rules.

Cases of academic dishonesty are subject to both academic and administrative sanctions. Academic sanctions pertain to the student’s grade or status in the class where the offense occurred. Administrative sanctions pertain to the student’s status at the College.

**Dishonesty**

- Knowingly furnishing false information to any College official, faculty member or College office.
- Forging, altering or misusing any College document, record, or instrument of identification (including student identification cards, passwords, PINs).

**Disruptive behavior**

Including, but not limited to:

- behavior that causes a disruption to either academic endeavors or the administrative operation of the College;
• conduct that disrupts any authorized or sponsored College event;
• the blocking of an entrance, exit, or access to any College facility, area, road, stairway and/or walkway;
• behavior that infringes on the rights of other members of the college community; and leading or inciting others to disrupt scheduled and/or normal activities within any campus building or area.
• engaging in expression which is obscene, libelous or slanderous, or which so incites students as to create a clear and present danger of the commission of unlawful acts on College premises, or the violation of lawful College regulations, or the substantial disruption of the orderly operation of the College.

**Threatening or intimidating behavior**

The use of words or actions to abuse, harass, bully, haze, stalk or coerce any person in a threatening or intimidating manner (including verbally, in writing, or through electronic or other means such as cyberbullying), when judged from the perspective of a reasonable person in the position of the victimized individual.

- Bullying involves the repeated or potentially repeatable, unreasonable actions of an individual, or a group of individuals, directed toward another person or group, which are intended to intimidate, degrade, humiliate, or undermine; or which create a risk to the health or safety of the targeted individual or group.

The purpose of this procedure is to provide a prompt and equitable means to address violations of the Standards of Student Conduct, which guarantees to the student or students involved the due process rights guaranteed them by state and federal constitutional protections. This procedure will be used in a fair and equitable manner, and not for purposes of retaliation. It is not intended to substitute for criminal or civil proceedings that may be initiated by other agencies. These procedures are specifically not intended to infringe in any way on the rights of students to engage in free expression as protected by the state and federal constitutions, and by Education Code Section 76120, and will not be used to punish expression that is protected.

What follows in this Administrative Procedure is an outline of possible sanctions open to the college, defined authority levels and the investigative and appeal processes implemented by the Vice President of Student Services, The Student Conduct Board, the President and the Board of Trustees. Detailed descriptions of these processes are available through the college website (Student Code of Conduct) and/or through the Vice President of Student Services.

**Reporting**

Any person may report a violation of student conduct to the Vice President of Student Services. The web site contains specific information on how to report student misconduct and provides additional resources.

**The following sanctions may be imposed immediately:**

Immediate Interim Suspension- (Education Code Section 66017): The President may order immediate suspension of a student where he/she concludes that immediate suspension is required to protect lives or property and to ensure the maintenance of order. In cases where an interim suspension has been ordered, the time limits contained in these procedures shall not apply, and all hearing rights, including the right to a formal hearing where a long-term suspension or expulsion is recommended, will be afforded to the student within ten (10) days.

Removal from Class - (Education Code Section 76032): Any instructor may order a student removed from his/her class for the day of the removal and the next class meeting. The instructor shall immediately report the removal to the President and the Vice President of Student Services. The Vice President of Student Services will initiate contact with both the faculty member and the student to investigate an alleged violation of student conduct. The student shall not be returned to the class during the period of the removal without the concurrence of the instructor.

Withdrawal of Consent to Remain on Campus - (Education Code Section 66017) The College President, Vice President of Student Services or Campus Police (Penal Code Section 626.4) may notify any person for whom there is a reasonable belief that the person has willfully disrupted the orderly operation of the campus that consent to remain on campus has been withdrawn for up to 10 days. If the person is on campus at the time, he/she must promptly leave or be escorted off campus. The Vice President of Student Services will initiate an investigation of a violation of student conduct.
Authority Levels

Vice President of Student Services - The Vice President of Student Services has been designated by the President to oversee this process, investigate violations, render sanctions, make referrals and/or initiate recommendations for Suspension or Expulsion. Suspension and Expulsion recommendations may be accepted by the student or appealed through a Student Conduct Board, who then makes a recommendation to the President. Any final decision for Suspension is made by the President; any final decision regarding Expulsion is rendered by the Board of Trustees.

Based on the findings of an investigation, the Vice President of Student Services shall do one or more of the following:

- Determine that there was no violation.
- File the report for future reference.
- Issue a written reprimand or warning to the student.
- Impose other sanctions that do not involve removal (e.g., probation, restriction from involvement or presence, etc.)
- Refer the student to a College or community agency for counseling or rehabilitative treatment.
- Initiate suspension or expulsion proceedings.

Student Conduct Board – This group hears appeals to recommendations of Suspension and/or Expulsion. It shall be composed of 2 administrators, 2 faculty members and 2 students.

The College President, the President of the Faculty Senate, and the president of the Associated Students shall each, at the beginning of the academic year, establish a list of persons who will serve on the Student Conduct Board. The College President shall appoint the members from the names on these lists. However, a member who has personal involvement in the matter to be decided, who is a necessary witness, or who could not otherwise act in a neutral manner shall recuse him or herself.

All decisions made by the Student Conduct Board are then forwarded to the President for a final determination.

President - Within 5 days of receiving any recommendation from the Student Conduct Board the President will render a final decision if the recommendation is Suspension or inform both the Board of Trustees and the Student if the recommendation is Expulsion.

Board of Trustees (Education Code Section 72122). The Board of Trustees shall consider any recommendation from the College President for expulsion at the next regularly scheduled meeting after receipt of the recommended decision. Detailed process and timelines are provided on the website under “Suspensions and Expulsions”.

The Board of Trustees shall consider an expulsion recommendation in closed session, unless the student has requested that the matter be considered in a public meeting in accordance with these procedures. The student may, within forty-eight (48) hours after receipt of the notice, request that the hearing be held as a public meeting. Even if a student has requested that the Board consider an expulsion recommendation in a public meeting, the Board will hold any discussion that might be in conflict with the right to privacy of any student other than the student requesting the public meeting in closed session. The final action of the Board on the expulsion shall be taken in open session, and the result of the action shall be a public record of the College. The decision of the Board shall be final.
