

CURRICULUM GUIDE 2009-2010

BIOTECHNOLOGY: BIOSTATISTICS

Certificate of Achievement

The Certificate of Achievement in Biotechnology: Biostatistics is a 31.5 unit program designed to train students in methods and techniques used in biotechnology statistical analysis. Courses in this program train students in DNA and protein laboratory techniques and assays, laboratory record keeping, sterile techniques, and mathematical analysis of laboratory outcomes. The program prepares students for entry-level positions in bio-manufacturing, biostatistician assistant, clinical data assistant/associate, validation assistant/technician, production planner/scheduler, and research assistant/associate positions requiring skills in statistics.
