

Spring 2010 CARE Income Certification

State regulations mandate that our program maintain true and accurate information. This certification is used to verify that your financial and/or marital status has not changed since acceptance into the CARE program and submission of your fall 2009 Agency Certification-Untaxed Income.

The remittance of this form serves as proof that you continue to receive cash aid and remain single head of household. If your income has changed and you are no longer functioning as single head of household, it is your responsibility to notify the CARE program at Ohlone College IMMEDIATELY, failure to do so is considered fraudulent and legal action will be taken.
