

# ASOC sets elections May 3, 4; Carnival moved to April 27

By CLIFTON M. DER BING  
Staff writer

The Associated Students of Ohlone College met last Tuesday to talk about the many upcoming events and issues concerning the student council.

To begin the main business of the meeting, Vice President of Instruction Jim Wright proposed a campus clean up on Earth Day, April 22. The council agreed to the idea and formed a group to further plan for the event.

ASOC Executive Elections are to be held on May 3 and 4 from 9 a.m. to 2 p.m., and again from 5 to 7 p.m. in the Quad. All Ohlone students are encouraged to vote for next year's executive council members.

Moved to April 27, the Ohlone Carnival will be held in the Palm Bosque with dates to be later determined.

The committee reported that there will most likely be food, games, a bouncy castle, sumo wrestling, and much more for all to enjoy. Since the Carnival is one week before the student elections, the ASOC welcomes all valid executive candidates to campaign at this event.

With an undetermined date for the ribbon cutting ceremony, the ASOC Student Services Informa-

tion Center is pushed toward a later opening. There was discrepancy with the council to decide whether or not to pursue the use of the area granted to them, feeling that more time is needed for further training. However, ASOC Adviser Debbie Tucker said that "backing out now is political suicide, especially when agreeing to accept the corner." She added that the main reason of this new student lobby center is to give out information about student government and clubs with a friendly ASOC presence.

In terms of funding, the council unanimously approved \$300 for their Bi-Monthly Breakfasts for students, \$127 for the Western States Communication Association Conference attendees as well as \$6,000 for Unity Week.

To end the meeting well, deaf

senator Ban-Jin Tan gave a workshop on American Sign Language by introducing the council to his culture. Through ASL facts and signing lessons, the entire ASOC participated in learning simple sign phrases useful at their meetings, such as "How are you?" and "Thank you." ASOC Treasurer Shawna Luce commented that "Ban-Jin's workshop was very beneficial to the council. It was informative and fun for all of us. I hope that he will continue to share his talents with ASOC."

The student government is currently looking for more presenters to help the council learn more about leadership. If interested in giving any workshop on leadership to ASOC, visit any of the council members in the student government office Room 1130.

# Jim Klent will do experiments Friday

By RANDALL WOO  
Staff writer

Retired Ohlone Professor Jim Klent will perform chemistry demonstrations as the guest speaker at this month's Brown Bag Seminar.

Dr. Klent was one of the few remaining original teachers from the time the campus opened when he retired earlier this year.

His name may sound familiar as there was a lab named after him in Building 2 at the graduation dinner last year.

The Brown Bag Seminar will take place this Friday, March 11, from 1 to 2 p.m. in Room 3201. There will be refreshments available as well.

Ohlone offers a Brown Bag Seminar for its students on the first Friday of every month. Future seminars include: "Polar Bears of Manitoba" by Juliette Hoffman on

Jim Klent

April 1, and "Insects as Vectors of Disease Transmission" by Jim Baxter on May 6.

These seminars are sponsored by the Math/Science Division and a grant from the ASOC.

# Ohlone student wins multimedia award

From staff reports

Katherine Lee, an Ohlone multimedia student, has won at the Media Arts Award Competition before. But her excellence in Web Design earned her a Merit Award, sponsored by California's Economic Development Network.

More than \$15,000 in software prizes was awarded to the winners

and certificates were given to merit award recipients.

Among 700 entries in 11 categories from community colleges and high schools across the state, Lee entered her digital portfolio into the contest, produced in instructor Pilar Lewis' MM-160 course.

More than 50 faculty and industry professionals judged the entries, and the winning projects will be

showcased at a ceremony on Thursday, March 17. The students' accomplishments will be recognized at an event hosted in the Apple store in Cupertino and in Pasadena.

Lee is a native of San Francisco majoring in Multimedia at Ohlone, and she has entered the contest several times before, winning on several occasions.

"We are very proud of her," said

Lewis.

Lewis has worked in the design industry for such clients such as Volkswagen and as a graphic designer in Mexico. She now does consulting projects, in addition to teaching at Ohlone.

Multimedia classes in Hyman Hall use computer equipment and software employed by industry professionals.

# 9 WEEK

## MARCH START CLASSES Begin March 28th
