

Minutes for 11-7-08 SLOA Meeting, Room NC2122, 12-1  
Members present: Carrie Dameron, Chris Warden, Deb Parziale, Jon Degallier,  
Poonam Khare, Rachel Sherman, Steve Bitzer, Susan Myers

1 Review and approval of Minutes from October 20, 2008

Motion to approve minutes: Deb, Second: Susan – Minutes approved

2. Institutional Effectiveness Rubric (attached excel sheet)

This committee is to look at our level. WASC wants us to reach proficiency level by 2012

Talked about Level 3 – Proficiency

Most of Level 3 – Proficiency rubrics have been checked off as Yes, or 'In Progress'. See updated spreadsheet included.

3. Definition for “planning/implementation”

Tabled?

4. Discuss education of faculty for January flex.

Talked about SLOA flex presentation. CS weekly meetings for assessment could be a model – show the specifics – share the actual questions used for classes and their SLO's, how is the question is given, how were the decisions made within the department faculty, how to document the results, etc.

Make a play out of the SLO animation tutorial

Do we need a 4 year timeline to satisfy WASC

6. Update on institutional planning

Looked at newly edited glossary of terms for “Student Learning Outcome, College Level:

Broad measurable statements of the knowledge, skills, abilities, and attitudes a student will have attained upon completion of the Ohlone Plan A General Education program.

Carry brought up a potential weakness for the SLO College term, where non-graduating students are not included. Would students be part of the college-wide goal if they take only 2 courses; does this excluded part time student?

Every course is tied to the college goal

Make the wording more global: it still has to be assessable

Why just GE?

We can't choose what courses go on B and C so these would not be our outcomes

The issue is tabled and placed on next meeting's agenda

7. Update on Curricunet program review

tabled
