

## **Instructional/Disciplines - Assessment Flow Plan**

### **Ohlone College Mission, Vision, Values, Goals, Objectives**

### **Program Description**

May include program philosophy and mission.  
Must relate to college mission, vision, values, goals and objectives.

### **Program Student Learning Outcomes (PSLOs)/Student Achievements**

Record assessments in the CurricUNET Program Review Module.  
Include GE Plan A SLO(s) as program outcome(s), if have GE courses.  
Summarize appropriate assessment data from courses to document assessments for each PSLO.  
Assessment includes faculty/staff reflections on the data collected.  
Update assessments for PSLOs annually.  
Analyze Student Achievement data annually (student metrics, i.e. course & program completion, transfer rates, degrees & certificates awarded, etc. – data available on Research & Planning website).  
Update analysis of Student Achievements annually.  
Update analysis of use of resources annually.  
These annual assessments create the foundation for developing & assessing Program Improvement Objectives (PIOs).  
Write PIOs if additional resources are needed.  
PIOs relate directly to college strategic planning and budget processes.

### **Course SLOs (CSLOs)**

Course SLOs are located in the Official Course Outline & in the syllabi.  
Assessment of course SLOs is based on results of collective student work (assignments & evaluation).  
Assessment includes faculty/staff reflections on the data collected.  
Course SLOs may be assessed collectively or independently.  
Documentation of course SLO assessment will be done on a new page in the CurricUNET course module (should be available Fall 2011). Until then, add current documentation as an attachment.  
Faculty determine assessment plan for courses.  
All courses must be assessed during the six year course review cycle.  
Collect assessment data for CSLOs for each course on a regular basis.  
Curriculum Committee will check for completion as a part of the 6 year course review cycle.  
Summarize & use appropriate assessment data from courses to document assessments for each PSLO
