### Student Learning Outcome:
*Identify SLO being evaluated.*

### Assessment Method:

<table>
<thead>
<tr>
<th>SLO#</th>
<th>Demonstrate technical skills in data management including data input, editing, query, analysis and display.</th>
</tr>
</thead>
</table>
|      | _____ exam  
|      | _____ discussion boards  
|      | _____ journal  
|      | _____ oral presentation  
|      | _____ field trip  
|      | _____ other (describe below): student exercise. |

### Sample of students assessed/timetable for the collection of date:

- 9 students completed an exercise to demonstrate their understanding of the SLO. Week of 2/27/14.

### Describe the results of the assessment:

- 100 – 90% = 9 students.
- All nine students were to complete the exercise, all students received full credit.

---

Concluding remarks: The geography department will continue to evaluate and improve the Geog 122 course as need be – based on feedback from the above assessment methods and students, the department will continue to modify and adapt to changing student needs. All nine students where able to complete the assigned GIS exercise for this SLO, with a 100% success rate in meeting SLO requirements.
