

PD 101 Project Summary – Jennifer Harper

PD 101 is now an on-line orientation course for new students. Prospective students who read through our orientation information on Ohlone's website will be invited to sign up for an on-campus or on-line PD 101 class to complete their new student orientation requirement. Upon completion of the PD 101 course curriculum students will work individually with a counselor to set up their first semester SEP (Student Education Plan) and register for classes.

This on-line course covers the following areas:

1. Ohlone College information and resources
2. Goal setting
3. Time management techniques
4. Study skills
5. Transfer and degree planning

New students who complete orientation via the PD 101 on-line course will be given .5 units upon completion of the three quizzes and Student Education Plan assignment. More importantly, I believe students who complete this course will be properly orientated and ready to begin a successful career at Ohlone College!
