STATEWIDE RATINGS
Ohlone is rated № 3 in the state for student success among midsize community colleges, and is in the top 15 overall out of 112 schools in the California Community College system.

GRADUATION RATES
Our graduation rate is the third highest in the state community college system. By the end of summer term, Ohlone will award 1,046 Associate degrees to our graduates for the 2014-15 academic year.

TRANSFER SUCCESS
Ohlone students who transfer to a CSU have a higher GPA in their first year compared with students who start at a CSU as freshman.

UNDERREPRESENTED POPULATIONS IN STEM
Ohlone is increasing opportunities for underrepresented students in Science, Technology, Engineering and Math (STEM) programs by recruiting women, veterans, and other underrepresented populations, providing support structures such as:

■ SOCIETY FOR WOMEN IN ENGINEERING (SWE) Chapter
■ SOCIETY FOR ADVANCEMENT OF CHICANOS AND NATIVE AMERICANS IN SCIENCE (SACNAS) Chapter
■ OHLONE MATH GATEWAY (OMG) Accelerated Math & Engineering program

VETERANS
The accelerated Ohlone Math Gateway is an example of a program that is suited to the needs of veterans because they can move quickly through math requirements and introductory engineering classes. Two veterans, as well as six women, out of 18 students just completed the first semester of the Math Gateway program.

RESPIRATORY THERAPIST
Ohlone’s Respiratory Therapist program has been awarded the Excellence in Registered Respiratory Therapist (RRT) credentialing by CoARC for the past four years. This award went to the top 7% of schools nationwide, distinguishing our program for its dedication to excellence in credentialing 100% of our graduating students at the highest level.

SAFETY AND LAW ENFORCEMENT
In the 2014-15 academic year, 633 students completed police training courses. Ohlone offers courses in Administration of Justice, including criminal forensics, Law Enforcement and Fire Technology.
