The Asset Redeployment Program (ARP) was created in an effort to identify and redploy vacant furniture and equipment no longer utilized by District departments. With this program, departments have the option of transferring available furniture and equipment to other campus users by contacting the ARP Coordinator to arrange the move and/or disposal of surplus items. This document contains information on the process of surrendering and disposing of surplus assets. It also provides instruction to both District departments and the public for viewing and bidding on District furniture and equipment available for redeployment or sale.

**Surrendering Surplus Furniture/Equipment**
Departments begin the process of surrendering surplus furniture or equipment by completing a Surplus Request Form and submitting it to the Purchasing Office c/o Maria Rocha, Program Coordinator (510) 659-6224. The ARP will determine the proper course of action in handling of furniture or equipment no longer being used. If the furniture or equipment appears to be in fair condition and have value, the ARP Coordinator will put the property up for the internal or external auction.
