| CNET-172 | CCNA Security – Jim Pham | **CNET-172** | Change units from 2.00 to 3.00. Change lecture hours from 27.00 to 36.00; change lab hours from 27.00 to 54.00; change total contact hours from 54.00 to 90.00. Change catalog description: CCNA Security equips students with the knowledge and skills needed to prepare for entry-level security specialist careers. CCNA Security aims to develop an in-depth understanding of network security principles as well as the tools and configurations required to secure a network. The course prepares students for the Cisco CCNA - Security certification exam. Change class schedule description: Students will learn network security principles and tools and configurations required to secure a network. The course includes preparation for the Cisco CCNA Security certification exam. Revise student learning outcomes; methods of evaluation; textbooks. |
| IS-110 | Introduction to Ethnic Studies – Elias Barbosa | **IS-110** | Change grading option from GR to GC. Remove advisory: "Eligible for." Change field trips from Not Required to May be Required. Change catalog description: This course offers an interdisciplinary approach to racial and ethnic relations, primarily situated in a sociological analysis of race, ethnicity, and racism. Students will examine the cultural, political, and economic practices and institutions that support or challenge ethnic inequalities, as well as historical and contemporary patterns of interaction between various racial and ethnic groups. This course introduces students to some of the historical experiences of |
selected ethnic minority communities in the United States. There is an emphasis on how these experiences affect how minorities view themselves in relationship to the larger United States society. Change class schedule description: This course provides an introduction to social and historical experiences of selected minority communities in relation to the larger United States society. Revise counselor information; student learning outcomes; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

**PS-105 Introduction to Comparative Politics – Katherine Michel**
Change title from Comparative Government. Change catalog description: This course uses comparative analysis to study different kinds of political systems, including their institutions, processes, and policies; the environments in which they occur; the problems they face; and their consequences. Change class schedule description: Students will learn about governmental institutions, political processes, socio-economic development, and contemporary issues in countries around the world. Revise counselor information; student learning outcomes; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

**SOC-102 Social Problems – Jennifer Jovel**
Change title from Social Problems of a Diverse Society. Change field trips from Not Required to May be Required. Change catalog description: This course analyzes the nature and characteristics of social problems within the context of sociological theory. The course examines four major areas of social problems. First, the course explores social problems of behavioral deviance, such as those related to sexual behavior, alcohol and drugs, violence, and crime. Second, the course examines social problems of inequality, including economic, racial/ethnic, gender, and sexual orientation inequalities. Third, the course looks at problems of social institutions, such as problems situated in health care, the criminal justice system, and the family. Fourth, the course analyzes social change and global social problems, including those related to urbanization, the environment, and war. This course introduces theoretical frameworks for understanding the causes and effects of social problems, as well as potential solutions for social problems. Change class schedule description: This course provides a study of social problems related to deviance, inequalities, institutions, and global issues. Revise student learning outcomes; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

**SOC-103 Social Science Research Methods – Jennifer Jovel**
Change catalog description: This course introduces students to research methods used in the social sciences. Students will examine critical issues and techniques in research design, data collection, and data analysis. The course also investigates the ethical responsibilities of social science researchers. This course contains a lab component that provides students with practical experience in evaluating and conducting social science research. Change class schedule description: This course introduces students to the basic steps and techniques used in social science research. Revise course assignments; methods of evaluation; methods of instruction; textbooks.

**SOC-105 Marriage and Family – Jennifer Jovel**
Change grading option from GR to GC. Change field trips from Not Required to May be Required. Change catalog description: This course examines the family as a social institution and includes an analysis of historical and recent changes. Students will study the present nature of marriage and family, and the socio-cultural and economic forces shaping these changes. Emphasis is placed on understanding interpersonal relationships, gender roles, mate selection, marital and parental roles, as well as variations of family structures. Change class schedule description: This course includes a study of mate selection, marital roles, and parental roles within the family and society in historical and current contexts. Revise counselor information; student learning outcomes; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

**SOC-108 Social Inequalities – Jennifer Jovel**
Change field trips from Not Required to May be Required. Change catalog description: This course focuses on various forms of social inequalities that exist within the United States. The course examines patterns of economic, status, and political inequalities on the basis of multiple, and intersecting, factors such as social class, gender, sexual orientation, and race/ethnicity. The course analyzes classical and contemporary explanations of inequalities and the consequences of inequalities on individuals and groups. The course also explores social mobility and changes in the systems of inequalities. Change
class schedule description: This course provides a study of social inequalities on the basis of various factors such as social class, gender, sexual orientation, and race/ethnicity. Revise student learning outcomes; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

NEW COURSES – CREDIT: (Action)

ATHL-244  Intercollegiate Water Polo Prep, Women – Christopher Warden
108.00 hours lab
Units: 2.00
Accepted for Credit: CSU
Prerequisite: Medical clearance within the last year
This course is designed to prepare intercollegiate athletes for the rigor and intensity of the championship season. Areas of emphasis will be on total body sports specific conditioning as well as skills and strategies of the sport. Repeatable 3 times, per Title 5 section 55041(a)(2). (GC)

WS-110  Introduction to Lesbian, Gay, Bisexual, and Transgender Studies – Kyle Livie
54.00 hours lecture, 0.00 hours lab
Units: 3.00
Accepted for Credit: CSU
Advisory: ENGL-101A
This course is an interdisciplinary, multicultural exploration of Lesbian, Bisexual, Gay, and Transgender (LGBT) people, focusing on the historical, cultural, and social contexts of LGBT life. Using primary and secondary texts from a range of fields in the humanities and the social sciences, students will consider the histories of LGBT people/communities as well as contemporary LGBT politics and society; theories about sexuality and sexual identity; and cultural production including literature, film, and other genres in mass culture. (GR)
