

CURRICULUM GUIDE 2020-2021

HUMAN DEVELOPMENT STUDIES

Associate in Arts in Human Development Studies

The associate degree in Human Development Studies offered by Ohlone College is designed to prepare students for studying Anthropology, Environmental Studies, Psychology, Sociology, and other related subjects at most colleges and universities. While the core courses required in the associate degree in Human Development Studies will fulfill the lower division major requirements at most universities, students are advised to meet with academic counselors to assess the course requirements for specific universities. This program will enable students to develop a strong foundation in life and social sciences and how they connect to other disciplines.

The Associate in Arts in Human Development Studies prepares students for a baccalaureate major in Human Development, Sociology, Psychology, or Anthropology. By fulfilling many of the lower division major requirements at the CSU and UC campuses, this program will enhance student awareness in ecological, historical, political, social, service/community learning issues as well as facilitate successful student transfer. The goal is also to excite, ignite, and inspire students to learn and serve their respective communities.

Requirements for Associate in Arts Degree

- a) Complete Major Field courses with a grade of C or better.
- b) Complete a minimum of twenty units selected from the following four areas.
- c) Complete Ohlone College General Education (Plan A), CSU GE (Plan B), or IGETC (Plan C) requirements. These requirements are specified in the Ohlone College catalog. Students who do not intend to transfer may complete Ohlone College General Education; students who intend to transfer may complete either CSU GE or IGETC. Counselors will advise students on the general education plan that best prepares them for pursuing an associate degree and/or transfer.
- d) Complete at least 60 degree-applicable units with a 2.0 grade point average.
- e) Complete at least 12 units at Ohlone College.

Student Learning Outcomes

1. Demonstrate the social, economic, and psychological impacts of human beings in their various environments.
2. Apply an understanding of social and cultural concepts and principles to modern life so they may critically analyze and understand information affecting human development.
3. Compare and contrast possible solutions to environmental, cultural, and evolutionary developments through the study of current, past, and future development of the human condition.
4. Evaluate policies, laws, and regulations and compare their value, implementation, and effects to social work and life in general.
5. Consider the inherent social and economic outcomes of living altruistically in environmentally sustainable areas for current and future generations.
