

CURRICULUM GUIDE 2020-2021

SOCIAL SCIENCE

Associate in Arts in Social Science

The Associate in Arts in Social Science is an interdisciplinary program of study designed to prepare students to transfer to most universities. It is a general social science degree that does not specialize in one specific discipline. The degree allows students to explore a number of transfer and career possibilities within the social sciences. The general emphasis provides a strong foundation for students pursuing a baccalaureate major within a wide range of social science disciplines, including administration of justice, anthropology, Chicano studies, economics, geography, history, psychology, or sociology. Through this interdisciplinary program, students will gain a better understanding of human behavior, social relationships, and social structures.

It is imperative that students entering Ohlone's Associate in Arts in Social Science meet with a counselor at the start of their academic work. Counselors will assist students in preparing a comprehensive Student Education Plan that will prepare them to achieve their academic goals.

Requirements for Associate in Arts Degree

- a) Complete Major Field courses with a grade of C or better.
- b) Complete six units in two different departments, three units from a third department, and at least 20 units overall.
- c) Complete Ohlone College General Education (Plan A), CSU GE (Plan B), or IGETC (Plan C) requirements. These requirements are specified in the Ohlone College catalog. Students who do not intend to transfer may complete Ohlone College General Education; students who intend to transfer may complete either CSU GE or IGETC. Counselors will advise students on the general education plan that best prepares them for pursuing an associate degree and/or transfer.
- d) Complete at least 60 degree-applicable units with a 2.0 grade point average.
- e) Complete at least 12 units at Ohlone College.

Student Learning Outcomes

1. Demonstrate knowledge of the major concepts, theoretical perspectives, empirical findings, and/or historical trends in the social sciences.
2. Develop an appreciation for the importance of social science scholarship by gaining a comprehension of both continuity and change over time as they position themselves and their society within the larger social science narrative.
3. Develop effective communication skills by reading secondary and primary source material; discussing course content with the instructor and their classmates; and writing basic essay arguments using social science evidence.
