Athletics: Return to Campus

Strategy Update

Robert Moore
Chris Warden
College Council Presentation:

• General Pandemic environment
• Regulatory environment: employee and student safety
  • Federal, State, and Local
  • CCC, NCAA, CCCAA
• Athletic protocols
• Ohlone strategy for return to play
• Risk management
• Challenges and contingencies
• Q & A
Pandemic Environment

• COVID-19 status
  • Over 450,000 deaths
  • Resistance to health-care guidance
  • State and local regulation

• Vaccination status
  • Supply and Demand
  • Pros and Cons of Emergency Use Authorizations
    • Expedites release of vaccines and treatments
    • Doesn't allow time to understand full impact
Regulatory Environment

1. State regulations
   • Cal/OSHA: Staff Safety
   • AB685: COVID-19 safety management
   • Schools vs. IHE:
     • Alameda County (AC) manages K-12
     • AC defers to State for IHE guidance
       • COVID-19 Industry Guidance for IHE

2. Alameda County Health Department:
   • Site-Specific Protection Plans (SPPs)
   • COVID-19 reporting
     • Isolation/Quarantine Order
     • Contact tracing
Athletics

• CCCAA response and action to date

• NCAA guidelines on RTC

• District readiness
Return-to-play strategy

1. On Campus conditioning
   • Following State, County and District guidelines

2. Practice
   • Following NCAA and IHE guideline

3. Competition
   • Following NCAA and IHE guideline
Risk Management

1. Symptom Screening (SWAY app)

2. Health management
   • masking, sanitizing, distancing
   • community impact

3. Testing, contact tracing
Challenges and contingencies

1. Trends associated with the Virus
2. County color (Purple, Red, Orange, Yellow)
3. Securing a testing agency and associated fiscal implications
4. Human resources associated with support (cleaning, disinfecting, injury prevention, etc.)
5. Student compliance and buy-in

6. And be ready to pivot!
Q & A
