CALL TO ORDER

AGENDA MODIFICATIONS (Information)
This item allows for items to be removed from the Agenda or for items to be considered in a different order than they are presented in the published document. It is also an opportunity for both the Chair and the members to indicate an interest in pulling Items off the Consent Agenda to be considered separately. Items on the Consent Agenda are considered routine matters of business.

**MAJOR COURSE REVISIONS (Consent/Action)**

**ASL-145  Deaf History, Audism, and Social Justice – Sandra Ammons**

Change title from Deaf History. Change units from 3.00 to 2.00. Change lecture hours from 54.00 to 36.00. Remove prerequisite: ASL-101A or ASL-101B. Change catalog description: This course provides an in-depth study of noted Deaf persons; Deaf contributions to education and job markets; Deaf heritage; impact of international policies on Deaf education in the United States; history of California School for the Deaf; and history of Deaf-run institutions in the Bay Area. This course also provides in-depth discussion on the intersectionality of race and gender within Deaf communities, and the effects of audism and other forms of oppression on Deaf people. Change class schedule description: This course provides an in-depth study of noted Deaf persons and Deaf-related historical events. Revise counselor information; student learning outcomes; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

**BA-125  Introduction to Business – Long Nguyen**

Change catalog description: This survey course in business provides a multidisciplinary examination of how culture, society, economic systems, legal, international, political, financial institutions, and human behavior interact to affect a business organization's policy and practices within the United States and within a global society. This course demonstrates how these influences impact the primary areas of business, including organizational structure and design; leadership, human resource management, organized labor practices; marketing; organizational communication; technology; entrepreneurship; legal, accounting, financial practices; the stock and securities market; and therefore affect a business’ ability to achieve its organizational goals. Change class schedule description: This course covers purposes, organization, and major activities of business operations in a global economy. Revise counselor information; course assignments; methods of evaluation.
BIOL-103B  Human Anatomy and Physiology – Margaret Kauffman
Change class schedule description: This course covers human cardiovascular, lymphatic, immune, respiration, renal, reproductive, and digestive systems. Cadaver dissection is included. Revise course content; course assignments; methods of evaluation; methods of instruction; textbooks.

BIOT-111A  Genomic and cDNA Library Construction and Analysis - Jim Baxter
Change catalog description: This course uses lecture and lab approaches to teach students the theory and practice of lab techniques used to construct, search, and analyze simple genomic and cDNA libraries. Students learn library construction techniques, replica plating, and the use of non-radioactive oligonucleotide probes for searching libraries to find DNA sequences of interest. Additionally, students learn DNA modification techniques and how to construct a simple restriction map from electrophoresis gel data. Students are required to purchase a lab coat, goggles, and examination gloves for use in this course. Change class schedule description: This is a laboratory class in construction and analysis of genomic and cDNA libraries. Students are required to purchase a lab coat, goggles, and examination gloves for use in this class. Revise student learning outcomes; course content; course assignments; methods of evaluation; textbooks; supplies.

CS-116  Object-Oriented Programming Using C++ - Pamela Price
Change catalog description: This intermediate-level programming course is intended for students who have already completed an introductory programming course. This course presents a comprehensive study of the C++ programming language and its role in the realm of object-oriented programming. The C++ language supports input/output streams; class constructs; inheritance; polymorphism; function and operator overloading; function and class templates; and exception handling. Change class schedule description: This intermediate-level programming class presents a comprehensive study of C++ as an object-oriented language. Revise counselor information; student learning outcomes; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

CS-124  Programming with Data Structures – David Topham
Change catalog description: This course involves the study and implementation of data structure programming techniques. The emphasis is on the data structures of stacks, queues, lists, trees, and hash tables; the use of recursion; and the application of these tools primarily to searching and sorting. Students implement these concepts by writing programs in an object-oriented language such as C++. Change class schedule description: This course provides an introduction to data structures using an object-oriented language such as C++. Revise counselor information; student learning outcomes; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

HLTH-140  Qigong I – Robin Kurotori
Change class schedule description: This class covers basic exercises, breathing techniques, static postures, introduction to self-massage, visualization, and meditation. Revise counselor information; course content; course assignments; methods of evaluation; methods of instruction; textbooks.

HLTH-141  Qigong II – Robin Kurotori
Change catalog description: This course advances the development of a personal Qigong practice technique through challenging routines and theoretical applications. This practice transcends the mind-body-spirit concept and facilitates the transformation to a more spiritual practice of Qigong. Change class schedule description: This class advances the personal Qigong practice technique through challenging routines and theoretical applications. Revise counselor information; course assignments; methods of evaluation; methods of instruction; textbooks.

HLTH-170  Foundations of Mindfulness – Robin Kurotori
Change catalog description: This experiential course provides tangible tools in developing mindful awareness of your body and sensory experiences; gratitude and compassion; mindfulness of your thoughts and emotions; mindful communication with others; as well as current scientific findings on neuroplasticity, which is the ability to use your mind to change your brain. Benefits of a mindfulness practice have been scientifically proven to reduce stress and anxiety; increase executive functioning; and improve overall balance and quality of life. Revise course assignments; methods of evaluation; textbooks.
NEW COURSES – CREDIT (Action)

TD-117  Musical Theatre Performance – Michael Smith
216.00 hours lab
Units: 4.00
Accepted for Credit: CSU
Prerequisite: Audition
This course is designed to familiarize students with the principles and complexities involved in the preparation of a musical theatre production. Specific instruction is given to actors, dancers, and singers in taking and implementing direction and applying it in a theatrical production. (GR)

NEW COURSES – NONCREDIT (Action)

BA-916B  Basic Business English Writing II – Amber Hatter
36.00 hours lecture
This noncredit course is designed to provide students with additional skills necessary to effectively compile documents for business applications. Not applicable to associate degree. Repeatable = Unlimited times, per Title 5 §55002(c)(4) (CR)

CAOT-920B  Beginning Word Processing II – Amber Hatter
36.00 hours lab
This noncredit course allows students to acquire additional word processing functions within the word processing program for business application. Additional functions include adding tables, charts, images, and watermarks to documents. Mail merge, shading and formatting, Word Art, and more are also covered. Not applicable to associate degree. Repeatable = Unlimited times, per Title 5 §55002(c)(4) (CR)

CAOT-923  Email for Business – Amber Hatter
9.00 hours lab
This noncredit introductory course teaches students how to use email for business. Students learn how to compose, save, print, and send email and attachments. Not applicable to associate degree. Repeatable = Unlimited times, per Title 5 §55002(c)(4) (CR)

GA-904  Digital Design Essentials – Isabel Reichert
6.00 hours lecture
6.00 hours lab
Advisory: Basic computer and Internet knowledge
This noncredit course provides students with an overview of design practices and workflows and introduces students to creative software designers used in the industry. Not applicable to associate degree. Unlimited times, per Title 5 §55002(c)(4) (CR)

MM-900  Game Design Essentials – Isabel Reichert
6.00 hours lecture
6.00 hours lab
Advisory: Basic computer literacy
This noncredit course is for students interested in game design or game development. The course provides students with an overview of the tools, skills, practices, and employment opportunities in an industry that encompasses dozens of job disciplines and employs thousands of people worldwide. Not applicable to associate degree. Unlimited times, per Title 5 §55002(c)(4) (CR)

MM-901  Web Design Essentials – Isabel Reichert
6.00 hours lecture
6.00 hours lab
This hands-on noncredit course introduces students to basic web design including creating, editing, publishing, and maintaining websites for business and personal use. The course does not require any prior knowledge of web design. Not applicable to associate degree. Unlimited times, per Title 5 §55002(c)(4) (CR)
**MM-902  Video Production Essentials– Isabel Reichert**

6.00 hours lecture  
6.00 hours lab  
Advisory: Basic computer literacy  
This noncredit course introduces students to the basics of video production, camera functions, video editing, and exporting video to the web. Students work individually and in groups to develop, shoot, and edit small video projects. Not applicable to associate degree. Unlimited times, per Title 5 §55002(c)(4) (CR)

**MM-903  Social Media for Business Essentials – Isabel Reichert**

6.00 hours lecture  
6.00 hours lab  
Advisory: Basic computer literacy  
This noncredit course provides students with an overview of social media and social media platforms used for digital marketing campaigns including Facebook, Instagram, Twitter, LinkedIn, and Pinterest. Students explore online advertising techniques to improve digital promotions, increase website traffic, and acquire and retain customers. Not applicable to associate degree. Unlimited times, per Title 5 §55002(c)(4) (CR)

3D: Certificate of Achievement – Katie Frank
The 3D Certificate of Achievement signifies that students have acquired skills in the fundamentals of
three dimensional art. This certificate provides a firm foundation for continued study in any field of 3D
arts: sculpture, glass, ceramics, or installation arts. In addition, students explore self, identity, culture and
the history of 3D arts. Attaining this certificate of achievement is the foundation for completion of the
Associate in Arts in Studio Arts for Transfer.

Requirements for certificate of achievement:
   a. Complete Major Field courses.
   b. Complete at least six units at Ohlone College.
   c. Maintain a 2.0 grade point average in Major Field courses.

Student Learning Outcomes
   1. Evaluate and critique art objects for contextual, formal, and technical success.
   2. Demonstrate an understanding of the historical and contemporary aspects of 3D art and apply
      that knowledge to the students’ own work.
   3. Apply the basic techniques presented to the media selected for a particular project and integrate
      history, theory, and criticism.
