A completed “Program Requirements Table” below is required by the Chancellor’s Office for all new and revised associate degrees. A Program Requirements Table is not required for an Associate Degree for Transfer (ADT).

Please refer to the “Instructions for Program Requirements Table for Associate Degree” on the Curriculum Committee website for more detailed information, a sample table, an explanation of who is responsible for which information, and where the completed table should be sent.

Please refer to the Chancellor’s Office Program and Course Approval Handbook (PCAH), 7th Edition, pages 79-89 for detailed information regarding the Chancellor’s Office requirements for an associate degree.

All three GE patterns (Ohlone GE, Plan A; CSU GE, Plan B; and IGETC, Plan C) have been included in the chart below. Please remove columns if a certain GE pattern will not be used for your associate degree.
